IMAGO Flash

IMAGO Flash is IMAGO's proprietary video conference application built with rich capabilities and usability that promote consistent performance and user experience across any device and platform. IMAGO Flash is a fully secured, instant collaboration tool to have an effective virtual meeting, which enables a seamless experience of setting up or joining a video call at your fingertips, wherever, whenever with just 1 single application.

Why IMAGO Flash?
• Instant Virtual Meeting – Join or host a virtual meeting in seconds.
• Supports any web browser on any device – No additional application or plugin is required for the host or participants.
• Scalability and higher video quality for meeting collaboration with Hybrid private cloud.
• Seamless video sharing.
• Built-in collaborative whiteboard (IMAGO Collab) with co-editing feature.
• Comes with an interactive polling feature & breakout rooms.

IMAGO Smart Present

IMAGO Smart Present is built to scale, it provides users with the tools they need to have a seamless presentation experience from a traditional physical meeting. The host can moderate how users engage either in 1:1 mode or team collaboration. The host can also easily manage how users can share their screens and collaborate.

IMAGO Smart Present supports collaboration from any device, making your interaction with any IMAGO all-in-one system easy.

Benefits include:
• Collaborative tools for interactive & fun sharing.
• Share your ideas effortlessly with real-time screen mirroring up to 9 devices.
• Comes with moderator control with Reverse Broadcast up to 100 devices or more .
• Sharing is made even easier with high compatibility with multiple OS: Android, iOS, Windows, Mac & Chrome.

IMAGO Collab

A virtual whiteboard for live collaborations with a feature-rich library.
IMAGO Collab is a lightweight virtual whiteboard that enables distributed teams to work together effectively and seamlessly.

**Compatible with any device and browsers.**
IMAGO Collab works on any device, from laptops to desktops, tablets, and mobile devices. It is also optimised for all browsers from Chrome to Safari and Edge.

Never too Far to Collaborate.
Collab empowers remote, onsite, and hybrid teams to communicate and collaborate across various formats, tools, channels, and time zones - without the constraints of a physical location, meeting space and whiteboards

Supercharge Your Brainstorming Sessions.
IMAGO Collab is equipped with templates and a feature-rich sketching library to facilitate effective brainstorming sessions or team discussions. For example, users can start their brainstorming session quickly and efficiently by simply importing their favourite brainstorming or mind-mapping templates from the library without having to create one from scratch.

IMAGO Work

A Secured & Reliable File-Sharing & Collaboration Solution.

IMAGO Work is a secured and reliable productivity platform for file sharing that keeps team members in sync by allowing users to collaborate in a real-time manner on documents and project files.

IMAGO Work is equipped with rich collaboration features that empower remote and distributed teams to share effectively despite the distance.

These features include file preview, file access control, file locking, online editing with remote collaboration, user management and single sign-on, cross-platform file syncing, data backup and recovery.
